

SMALL PILLOWCASE (12" X 18")

These small pillowcases are used by the FBC for the sleeping mats, during classroom naptime. They are very easy to make.

Supplies:

Pre-washed, bright, high-contrast material (primary colors, large prints or black and white). Material should be cotton or cotton blend, sheeting weight.

Directions:

1. Cut 2 RECTANGLES 13.5" x 22" out of the fabric.
2. Place right sides together. Sew 2 long edges and 1 short edge. (This leaves an opening to insert the pillow). Serging the edges helps to avoid unraveling.
3. Turn open end under 2" and then 2" again and sew a hem like a pillowcase top.
4. Turn right side out and press.
